

## God's Amazing Creation

*"Where were you when I laid the earth's foundation?" Job 38:4*

What began as a simple spring nature walk turned into something special as my wife and I trekked along our hometown's Grand River. We noticed some familiar "friends" on a log in the rippling water—five or six large turtles basking in the sun. Sue and I smiled at the amazing sight of these reptiles, which we hadn't seen for many months. We were delighted that they were back, and we celebrated a moment of joy in God's magnificent creation.

God took Job on quite a nature walk (see Job 38). The troubled man needed an answer from his Creator about his situation (v. 1). And what he saw on his journey with God through His creation provided the encouragement he needed.

Imagine Job's amazement as God reminded him of His grand design of the world. Job got a firsthand explanation of the natural world: "Who laid its cornerstone—while the morning stars sang together and all the angels shouted for joy?" (vv. 6–7). He got a geography lesson regarding God's imposed limitations of the seas (v. 11).

The Creator continued to inform Job about the light He created, snow He produces, and rain He provides to make things grow (vv. 19–28). Job even heard about the constellations from the One who flung them into space (vv. 31–32).

Finally, Job responded, "I know that you can do all things" (42:2). As we experience the natural world, may we stand in awe of our wise and wonderful Creator.
