NEWSTART PROGRAM continues with a focus on sunlight. In the UK from late March/early April to the end of September, most of us, should be able to make all the vitamin D we need from sunlight. Experts recommend 10 to 15 minutes of daily sun exposure for people who have lighter skin and 25 to 40 minutes for those with darker skin. To learn more and read this message in full check the church website. Any questions, please contact your Health Ministries Team (caz@mendel-it.co.uk).

On behalf of myself and my family, I want to extend our heartfelt gratitude for the overwhelming support and love you've shown us during this incredibly difficult time. Losing our father and husband, Fela Bright, has been an immense challenge, but your presence, prayers, and kind gestures have provided us with the strength and comfort we needed to navigate through this journey of grief.

The burial ceremony, by the grace of God, went smoothly, and we found solace in the fellowship and support of our church community. As we continue to navigate life without him, we ask for your continued prayers and support. Your unwavering faith and compassion have been a source of light in our darkest moments, and we are deeply grateful for your presence in our lives.

May God bless each and every one of you abundantly, and may He continue to guide us as we rebuild and carry on.

With sincere appreciation and warm regards,
Jackson Bright
